# WATER | ENERGY | CLIMATE

Water Sustainability and Energy Transition: Implications on GCC & the World

[www.gweccc.com](http://www.gweccc.com)

**EVENT  
BROCHURE**

Organised By

## ● ● ● **ABOUT GWECCC**

Global Water, Energy and Climate Change Congress is a water & energy centric event that will mainly address the concerns that are faced by natural resources due to heavy consumption in major industries & the impacts of climate change. It will be organized as the ultimate platform for addressing sustainable development & integrated management of water & energy resources and promoting regional & international strategy related programmes & projects which address the challenges faced by the sector, in maintaining and flourishing its resources.

GWECCC will include a showcase of advanced technologies, innovations and bring together global leaders, experts, and policymakers to exchange experiences, best practices and explore opportunities that exist in the current scenario, that can support & sustain water resources and mitigate scarcity & preservation concerns.

# WHY ATTEND

- Uncover Water Projects aligned to Bahrain's Vision 2030 & other GCC nations
- An optimum platform for unparalleled networking opportunities to promote collaboration and to encourage innovations
- Enhance your knowledge about how public and private partnerships can further accelerate global action against climate change and carbon emissions
- Explore more from the proven best practices and practical insights from industry leaders & experts
- Stay abreast with latest trends, developments and technologies related to Water, Energy and Climate
- Expand your network with fellow professionals from different companies, countries, and associations with the opportunity to see the latest equipment, to exchange experiences and knowledge, technologies, and services provided by different companies

## ● ● ● ● **WHY PARTNER**

**Thought Leadership** - Receive a strategic platform to communicate your vision towards inter-linkage between Water, Energy and Climate Change

**Global Exposure** - Benchmark yourself as an industry leader, with the opportunity to engage with your target audience in a professional environment designed to maximise your return on investment

**Accelerate Your Brand** - Elevate your brand visibility as a pioneer and ensure you are at the forefront of your customer minds by building your brand exposure, pre, during and post-event through a variety of different branding opportunities

**Discover Opportunities** - Discover key opportunities across the region and meet energy leaders, government authorities, technology, and solution providers

**Networking** - Network with peers, industry leaders and build your relationships with prospective new clients and partners

## ● ● ● ● **WHY EXHIBIT**

- Strategic opportunity to build relationships with prospective clients and potential buyers to further business opportunities in the region
- Create brand awareness of your innovative products and launch new products and services to industry, media, and trade visitors
- Position your organisation as a premier global brand in front of an elite audience to powerfully communicate your company's latest technology, services, and facilities in the field of Water, Energy and Climate
- Showcase your brand and exhibit your new launches to end-users
